Nature-based work

Does your work involve spending time in natural environments?

● No ● No response ● Yes

Percentage of respondents in 2022 who answered 'Yes' (orange) and 'No' (blue) to the question: Does your work involve spending time in natural environments?

Key Vital Sign Indicator Results

- Nearly 14 percent of respondents said their work involved time outdoors.
- Of those, 50 percent worked more than 10 hours per week outdoors. See [Interpretation of Results](#) for more information.
- There were no significant differences in time spent working outdoors since 2018.
