

# PUGET SOUND VITAL SIGNS

## INDICATOR ESTUARINE BIRDS

This indicator will measure overall population trends for estuarine bird species to help us understand whether estuaries are functioning to support the species which depend on them.

## Key Vital Sign Indicator Results

This is a new indicator and we are working with our partners to compile and report data.

For more information, please see the [Salish Sea Estuaries Avian Monitoring Framework](#) (*Draft summary for review*). The Framework is a collaboration of the Stillaguamish Tribe, Audubon Washington, Ecostudies Institute, and Washington Department of Fish and Wildlife. The Framework is part of a multi-year effort to address shared information needs and support avian management and conservation in the region.
